

The 6th International Conference on Chemical Engineering (ICCE 2022)
scheduled from October 5-7, 2022 in Iasi, Romania

The **ICCE 2022** is co-organized by Gheorghe Asachi Technical University of Iasi, Cristofor Simionescu Faculty of Chemical Engineering and Environmental Protection and Radu Z. Tudose Alumni Association, under the auspices of Romanian Academy and supported by industrial partners.

This edition is dedicated to the celebration of 110 years of continuous training in engineering in our university.

The conference provides an excellent possibility to reach research experts from both academia and industry. Guided by the traditions of previous ICCEs, this year event will bring together leading chemical and environmental engineers, chemists, biotechnologists and other associated professionals from different countries to discuss and share the up-to-date challenges involved in the dynamic and fast-moving fields of materials, processes, bio-industries, eco-design and sustainability research.

ICCE 2022 encompasses plenary lectures, key note and oral presentations, young researcher forums and professional workshops.

The conference on the website will be regularly updated:
